Subject: RE: Dermal working group status?

Michael Dellarco is no longer at EPA. You already know that John Schaum retired.

Mark, thanks for the update on the status of the dermal workgroup folks. I will update my list. Also, I believe when John Schaum retired he meant for Linda Phillips (also from NCEA) to take his place on the group. But sounds like the group has not been meeting regularly...

Thanks, Kathleen. You might say that the Dermal Workgroup is in senescence. ☺ Extracted from the 2004 Superfund Guidance on dermal exposure are the members

Dave Crawford, OSWER/OSRTI
Michael Dellarco, ORD/NCEA
Kim Hoang, previously with ORD/NCEA, currently with Region 9
Elizabeth Lee Hofmann, OSWER/OAA
Mark Maddaloni, Region 2
John Schaum, ORD/NCEA - now retired

Dan Stralka, Region 9

Former members:

Ann-Marie Burke, previously with Region 1

Mark Johnson, previously with Region 5 now with ATSDR

Loren Lund/Steve Rembish, previously with the Texas Natural Resource Conservation Commission

Subject: Dermal working group status?

Hi Mark,

Thanks for chiming in during the OHHRAAF teleconference. Developing this dermal slope factor for BaP has definitely been an uphill battle! It's good to have some support for it even if all the kinks aren't quite worked out.

Once we have received the final draft SAB report, IRIS will be scheduling a meeting to follow up on science issues surrounding the dermal slope factor with some NRC experts. I'd like to make sure the members of the EPA dermal working group are made aware of this meeting in case they want to participate (or perhaps review draft meeting materials), but I am not sure I know the current membership of the dermal working group. Do you happen to know who is currently on the workgroup? Also, does the group still actively meet?

Thanks for any info.

-Kathleen
